pascal.polleunus.be/cv

Multipotentialite product visionary and technical leader transforming ideas into businesses.

Atypical thinker who connects dots others miss – from business positioning to cultural impact.

With two decades of diverse experiences – from technical architecture to user experience to marketing.

## TRAITS

Experienced, creative, and innovative.

Good listener and critical thinker with strong analytical skills.

Results-driven, strategic, tactical, and proactive.

Curious, keen and enthusiastic to learn, autodidact.

Excellentist – perfectionist in redemption.

Require meaning, challenge, and dynamism.

Enjoy open source and startup mentality.

Not interested in the financial sector and Microsoft environments.

Human Design: 4/1 Splenic Energy Projector, Juxtaposition Cross of Crisis, Channel of Surrender.

### “Career Break” / Personal Projects

January 2020 - Present

Developing personal skills and working on personal projects.

- Wood and metal working, 3D modeling, CNC machining, welding, painting...
- tiny<sup>3</sup>: Crafting state-of-the-art small houses and their content, from design to manufacturing.
- Self.Farm: Allow people to easily grow quality food with sustainable and cost effective tools, without prior knowledge required.
- Miniminst: Building several Classic Minis like scale models; from scratch, carefully choosing every single piece.
- Fix My Bike: a matchmaking platform that connects cyclists with certified bicycle mechanics.
- Wody: 30+ projects related to CrossFit (apps, products, services, book, Web3).
- PyHD: Python library for Human Design – BodyGraph calculations and analysis.
- Makers Paradise: A coworking space for makers of all trades, providing in one place everything they need to craft their ideas, in a crazy funny living lab environment where curiosity and newness kick out boring.
- ...

1996–1998 **Computer Sciences** U.L.B. (Université Libre de Bruxelles)

1994–1996 **Industrial Engineering** E.C.A.M. (École Centrale des Arts et Métiers)

## **QUOTES**

« *We can't solve problems by using the same kind of thinking we used when we created them.* » —Albert Einstein

« *It seems that perfection is attained not when there is nothing more to add, but when there is nothing more to remove.* » —Antoine de Saint Exupéry

« *"Good enough" is the enemy of humanity.* » —Mike Lazaridis, in 'BlackBerry'

« *The mind, once stretched by a new idea, never returns to its original dimensions.* » —Ralph Waldo Emerson

« *Don't ever let someone tell you you can't do something. Not even me. You got a dream, you gotta protect it. People can't do somethin' themselves, they wanna tell you you can't do it. You want somethin', go get it. Period.* »

—Chris Gardner, in 'The Pursuit of Happyness'
